## CLASSIC SERIES FREEBASE E-LIQUID

STRENGTHS : 3mg | 6mg | 12mg | 18mg

As a pioneer in the electronic cigarette industry, Hangsen is one of the first companies to blend PG, VG, and flavorings into the base of e-liquids. In the early days, Hangsen introduced this technique to the North American and European markets, reaching the pinnacle of the classic 30VG e-liquid market and creating thousands of **CLASSIC flavors** that have had a profound impact. Even today, many popular tobacco and mint flavors are influenced by Hangsen's original creations.

# QUALITY STANDARDS

Hangsen follows a set of international quality management system. In order to provide high quality products and services, the company has completed a series of international standard certification such as HACCP, GMP, ISO 9001:2015.

On this basis, the company has been strictly implementing higher standards of internal production management process and ERP management system, to ensure that our clients get consistent, high-quality products and services.

## ISO9001

Hangsen ensures the safety, reliability and sustainability of products through strict implementation of ISO9001 international standards, while minimizing errors and improving customer satisfaction

## GMP

GMP is a set of mandatory standards applicable to the pharmaceutical, food and other industries. Hangsen meets GMP hygiene quality requirements in terms of raw materials, personnel, facilities and equipment, production process, packaging and transportation, quality control and so on.

## HACCP

Hangsen's production process is in compliance with the HACCP standard, which is a management system that solves food safety issues by analyzing and controlling biological, chemical and physical hazards from the production, procurement and processing of raw materials to the manufacturing, distribution and consumption of finished products.
